SUBJECT INDEX

A

Accidents
infarction of spinal cord, 397
Acetazolamide
effects of hyperbaric oxygenation and, on syncope, 69
Acetylcholine
PO_2 in cerebral cortex, 194
Adrenergic blockade
noradrenergic mediation of experimental cerebrovascular spasm, 356
Age
cerebrovascular disease in midwestern community, 454
cerebrovascular disease in young adults, 466
significance in nonembolic cerebral infarction, 449
smaller intracerebral vessels, 128
Anatomic studies
carotid artery stenosis, 149
Aneurysms
cerebrovascular disease in young adults, 466
coagulation abnormalities in subarachnoid hemorrhage, 139
experimental subarachnoid hemorrhage, 248
pathogenesis of cerebral infarction, 52
Angiography
abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
anatomic and hemodynamic correlations in carotid artery stenosis, 149
experimental subarachnoid hemorrhage, 248
method for measuring cerebral hemispheric blood flow and metabolism, 419
opacity pulse propagation measurements, 411
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
Animal studies
cats
effect of Isordil and Cyclospasmol on vascular spasm induced in basilar artery, 325
effects of $Pa_{(CO_2)}$ on blood flow, 27
effects of oxygen inhalation, 314
experimental cerebrovascular spasm, 356
localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
opacity pulse propagation, 401
PO_2 in cerebral cortex, 194
dogs
blood volume, hematocrit, and pressure relationships in isolated perfused dog brain, 270
cranial arterial circulation and ocular pulsations, 23
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
experimental cerebral infarction
clinicopathological model of deep cerebral infarction, 232
selective segmental occlusion of intracranial arteries, 224
experimental cerebrovascular spasm, 356
particle distribution method for estimating blood flow in central and peripheral nervous system, 370
monkeys
experimental cerebrovascular spasm, 356
experimental subarachnoid hemorrhage, 248
permeability of blood-brain-barrier, 375
temporary occlusion in middle cerebral artery, 439
transorbital approach to middle cerebral artery of squirrel monkey: technique for experimental cerebral infarction, 107
rats
acute cerebral ischemia, 38, 112
metabolic changes and cerebral ischemia, 38
Anticoagulant therapy
transient cerebral ischemic attacks, 178
Arteries
intracranial
experimental cerebral infarction, 224
smaller intracerebral vessels, 128
trauma
experimental subarachnoid hemorrhage, 248
Arteriography
hypertension complicating carotid endarterectomy, 307
intracerebral hematomas treated without surgery, 286
thrombus formation on angiogram needle, 104
Arteriosclerosis
cerebrovascular disease in midwestern community, 454
metabolic changes and cerebral ischemia, 38
following bilateral carotid artery ligation, 112
smaller intracerebral vessels, 128
Atherosclerosis
cerebral, pathogenesis of, 77
cerebrovascular disease morbidity study, 86
plaques
anatomic and hemodynamic correlations in carotid artery stenosis, 149
recurrent obstruction of internal carotid artery five years after endarterectomy, 173
predisposing factors
nonembolic occlusion of middle cerebral and carotid arteries, 363
Atmospheric exposure
effect on permeability of blood-brain-barrier, 375
Auscultation
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
Automobile accidents
infarction of spinal cord, 397
Autopsy studies
intracerebral hematomas treated without surgery, 286
massive cerebral infarction with severe brain swelling, 158
pathogenesis of cerebral atherosclerosis, 77
Autoregulation
effect of $Pa_{(CO_2)}$ on blood flow, 27

B

Basilar artery
- effect of Isordil and Cyclospasmol on vascular spasm in cats, 325
- occlusions
  - cranial arterial circulation and ocular pulsations, 23

Blood-brain-barrier
- effect of electrocautery, atmospheric exposure and surgical retraction on permeability of, 375

Blood flow
- anatomic and hemodynamic correlations in carotid artery stenosis, 149
- bilateral jugular venous blood flow by thermal dilution, 348
- cerebral
  - bilateral jugular venous blood flow by thermal dilution, 348
  - effects of acetazolamide and hyperbaric oxygenation on syncope, 69
  - and internal carotid artery flow during carotid surgery, 253
  - method for measuring cerebral hemispheric blood flow and metabolism, 419
  - relation between cardiac function in stroke patients
    - effect of CO_2 inhalation, 27, 330
  - 133-Xenon inhalation method for assessment of, 7
- cortical
  - assessment with infrared microscope, 100
- effects of oxygen inhalation on blood flow and microvasculature of cerebral cortex, 27, 314
- evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
- hemispheric
  - metabolism and abnormal, despite normal angiograms in stroke, 219
- internal carotid artery occlusion diagnosed by Doppler ultrasound, 122
- particle distribution method for estimating, in central and peripheral nervous system of dogs, 370
- reversal
  - subclavian steal syndrome, 320

Blood velocity
- internal carotid artery occlusion diagnosed by Doppler ultrasound, 122

Blood volume
- hematocrit and pressure relationships in isolated perfused dog brain, 270

Brain
- edema
  - localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
  - massive cerebral infarction with severe brain swelling, 158
- effects of acetazolamide and hyperbaric oxygenation of syncope, 69
- increased intracranial pressure
  - massive cerebral infarction with severe brain swelling, 158
- infrared microscope for detecting temperature changes, 100
- isolated perfused
  - blood volume, hematocrit and pressure relationships, 270
- particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370
- permeability of blood-brain-barrier, 375
- swelling
  - cerebral infarction with, 158

Brain stem
- cerebrovascular disease in midwestern community, 454
- particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370

Brainstem ischemia
- subclavian steal syndrome, 320

Bruits of head and neck
- evaluation of rapid diagnostic methods, 205
- examination for, 205
- significance and prevalence of, 245

C

Capillaries
- growth of
  - localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
- permeability of blood-brain-barrier, 375

Carbon dioxide
- effect of $Pa_{(CO_2)}$ on blood flow and microvasculature of ischemic and nonischemic cerebral cortex, 27, 330
- hypoxyrrhachia and intracranial hemorrhage, 432
- relation between cardiac function and cerebral blood flow in stroke patients, 330

Cardiac disorders
- predisposing to embolic stroke, 164

Cardiac function
- relation between cerebral blood flow and effect of CO_2 inhalation, 330

Cardiovascular disease
- infarction of spinal cord, 397

Carotid arteries
- bilateral ligation
  - metabolic changes in acute cerebral ischemia following, 112
- blood volume, hematocrit and pressure relationships in isolated perfused dog brain, 270
- cerebral blood flow and internal carotid artery flow during carotid surgery, 253
- disease
  - opacity pulse propagation, 401
- endarterectomy
  - hypertension complicating, 307
- evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
- experimental cerebral infarction, 224
  - clinicopathological model of deep cerebral infarction, 232
- ligation
  - metabolic changes and cerebral ischemia, 38
- occlusion
  - abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
  - cranial artery circulation and ocular pulsations, 23
  - diagnosed by Doppler ultrasound, 122
  - method for measuring cerebral hemispheric blood flow and metabolism, 419
- nonembolic occlusion of middle cerebral and carotid arteries, 363
  - opacity pulse propagation measurements, 411
  - pathogenesis of cerebral infarction, 52
- opacity pulse propagation in internal and external carotid vascular beds, 401, 411
- recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173

stenosis
anatomic and hemodynamic correlations, 149
Cerebral arteries
middle
experimental cerebral infarction, 224
nonembolic occlusion of carotid arteries and, 363
temporary occlusion in the monkey, 439
transorbital approach in squirrel monkeys: technique for experimental cerebral infarction, 107
Cerebral cortex
assessment of cerebral circulation with infrared microscope, 100
effect of $Pa_{(CO_2)}$ on blood flow and microvasculature of, 27
effects of breathing oxygen or oxygen plus carbon dioxide and the injection of neurohumors on the PO_2 of cat cerebral cortex, 194
effects of inhalation of oxygen on blood flow and microvasculature of ischemic and nonischemic, 314
Cerebral hemorrhage
death statistics for cerebrovascular disease, 184
transient cerebral ischemic attacks associated with subacute bacterial endocarditis, 178
Cerebral infarction
cerebrovascular disease in Indiana community, 261
death statistics for cerebrovascular disease, 184
effect of $Pa_{(CO_2)}$ on blood flow, 27
effects of oxygen inhalation on blood flow and microvasculature of ischemic and nonischemic cerebral cortex, 314
experimental
clinicopathological model of deep cerebral infarction, 232
localization of radioisotope (Chlormerodrin Hg-203), 143
permeability of blood-brain-barrier, 375
selective segmental occlusion of intracranial arteries in dogs, 224
transorbital approach to middle cerebral artery of squirrel monkey, 107
hemiplegia due to stroke, 477
nonembolic
effect of age, 449
pathogenesis of, 52
secondary to carotid artery occlusion, 52
post-traumatic hemiplegia, 278
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
retrieval of thrombus attached to Cournand needle, 104
with severe brain swelling: clinicopathological study, 158
stroke team concept, 19
transient cerebral ischemic attacks associated with subacute bacterial endocarditis, 178
Cerebral ischemia
effect of $Pa_{(CO_2)}$ on blood flow, 27
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
metabolic changes in, following carotid artery ligation, 38, 112
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
transient cerebral ischemic attacks associated with subacute bacterial endocarditis, 178
transorbital approach to middle cerebral artery of squirrel moneky; technique for experimental cerebral infarction, 107
Cerebral thrombosis. *See* Thrombosis, cerebral
Cerebrospinal fluid
oxygen tension
hypoxyrrhachia and intracranial hemorrhage, 432
Cerebrovascular disease
abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
community medicine of, 385
death statistics, 184
extracranial
evaluation of diagnostic methods, 205
in an Indiana community, 261
in midwestern community, 454
Nationwide Morbidity Study, 86
prognosis
discrepancies in neurological history and examination, 14
relation between cardiac function and cerebral blood flow
effect of CO_2 inhalation, 330
133-Xenon inhalation method for assessment of cerebral circulation, 7
young adults, 466
Cerebrovascular disorders
assessment of cerebral circulation with infrared microscope, 100
Cerebrovascular spasm
experimental
noradrenergic mediation of, 356
Chlormerodrin Hg-203
localization of radioisotope in experimental cerebral infarction, 143
Cholesterol
metabolic changes and cerebral ischemia, 38, 112
Cigarette smoking
cerebrovascular disease in Indiana community, 261
Circle of Willis
pathogenesis of cerebral atherosclerosis, 77
smaller intracerebral vessels, 128
Circulation
cerebral
assessment with infrared microscope, 100
effect of $Pa_{(CO_2)}$ on blood flow, 27, 330
relation between cardiac function and, 330
Xenon inhalation method for assessment of, 7
collateral
abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
experimental cerebral infarction
clinicopathological model of deep cerebral infarction, 232
opacity pulse propagation measurements, 411
temporary occlusion of middle cerebral artery in monkeys, 439
cranial artery
ocular pulsations and, 23
Clinical studies
temporary occlusion of middle cerebral artery, 439
Clinicopathological correlations
experimental cerebral infarction, 232
Coagulation
abnormalities in subarachnoid hemorrhage, 139
Coma
cerebrovascular disease morbidity study, 86
Community medicine
of cerebrovascular disease, 385

Corticosterone
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38
Cournand needle
retrieval of thrombus attached to, 104
Cranial artery
ocular pulsations and circulation in, 23
Creatine phosphokinase (CPK)
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38
Cyclospasmol
effect of Isordil and, on vascular spasm induced in basilar artery of cats, 325

D

Death, causes of
age and nonembolic cerebral infarction, 449
Death statistics
cerebrovascular disease, 184, 385
Diabetes
age and nonembolic cerebral infarction, 449
occlusion of middle cerebral and carotid arteries, 363
Diagnostic methods
cerebrovascular disease
direct thermometry, ophthalmodynamometry, auscultation and palpation, 205
evaluation of rapid methods, 205
in midwestern community, 454
of young adults, 466
internal carotid artery occlusion diagnosed by Doppler ultrasound, 122
Diffusible indicator methods
effect of $Pa_{(CO_2)}$ on blood flow, 27
Doppler ultrasound
internal carotid artery occlusion diagnosed by, 122

E

E-aminocaproic acid
coagulation abnormalities in subarachnoid hemorrhage, 139
Edema
acute cerebral ischemia, 112
brain
localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
massive cerebral infarction with severe brain swelling, 158
permeability of blood-brain-barrier, 375
metabolic changes and cerebral ischemia, 38
Electrocardiography
cerebrovascular disease in Indiana community, 261
Electrocautery
effect on permeability of blood-brain-barrier, 375
Electromagnetic flowmetry
blood flow during carotid surgery, 253
Electron microscopy studies
cerebral infarction, 107
Emboli
cerebral
cerebrovascular disease in midwestern community, 454
experimental cerebral infarction
clinicopathological model of deep cerebral infarction, 232
selective segmental occlusion of intracranial arteries in dog, 224
silicone rubber, 224, 232
Embolism
anatomic and hemodynamic correlations in carotid artery stenosis, 149
cardiac disorders predisposing to stroke, 164
pathogenesis of cerebral infarction secondary to mechanical carotid artery occlusion, 52
retrieval of thrombus attached to Cournand needle, 104
transient cerebral ischemic attacks, 178
Encephalomalacia
cardiac disorders predisposing to stroke, 164
Endarterectomy
anatomic and hemodynamic correlations in carotid artery stenosis, 149
blood flow during carotid surgery, 253
hypertension complicating carotid endarterectomy, 307
recurrent atherosclerotic obstruction of internal carotid artery five years after, 173
Endocarditis
bacterial
transient cerebral ischemic attacks and, 178
cardiac disorders and stroke, 164
Enzymes
acute cerebral ischemia, 112
Epidemiological studies
cardiac disorders predisposing to stroke, 164
cerebrovascular disease
death statistics, 184
in Indiana community, 261
in midwestern community, 454
morbidity study, 86
in young adults, 466
hemiplegia due to stroke in India, 477
Epinephrine
effects of breathing O_2 or $O_2 + CO_2$ on the PO_2 of cat cerebral cortex, 194
Erythrocytes
blood volume, hematocrit and pressure relationships in isolated perfused dog brain, 270
Ethnic groups
cerebrovascular disease in midwestern community, 454
Etiology of stroke
death statistics for cerebrovascular disease, 184
Examination
cerebrovascular disease
discrepancies in neurological history and, 14
inter-observer variability in neurological history and examination, 14
Experimental stroke
effect of $Pa_{(CO_2)}$ on blood flow, 27
Extended-care facilities
stroke team concept, 19
Extracranial cerebrovascular disease
direct thermometry, ophthalmodynamometry, auscultation and palpation for diagnosing, 205
Eyes
cranial arterial circulation and ocular pulsations, 23

F

Fibrinogen
coagulation abnormalities in subarachnoid hemorrhage, 139
Fibrinolysis
coagulation abnormalities in subarachnoid hemorrhage, 139

Focal cerebral ischemia
temporary occlusion of middle cerebral artery, 439
Follow-up
cerebrovascular disease in young adults, 466
Free fatty acids
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38

G

Gamma scintillation cameras
133-Xenon inhalation method for assessment of cerebral circulation, 7
Geographic variations
cerebrovascular disease in midwestern community, 454
stroke mortality, 86
Glucose
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38

H

Head injuries
post-traumatic hemiplegia, 278
Heart disease
cardiac disorders predisposing to embolic stroke, 164
Hematocrit
blood volume, hematocrit and pressure relationships in isolated perfused dog brain, 270
Hematomas
intracerebral, treated without surgery, 286
post-traumatic hemiplegia, 278
Hemiplegia
delayed arterial spasm and thrombosis as cause of post-traumatic, 278
due to stroke: epidemiological study in India, 477
Hemispheric blood flow
method for measuring cerebral hemispheric blood flow and metabolism, 419
Hemispheric metabolic index
abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
method for measuring cerebral hemispheric blood flow and metabolism, 419
Hemodynamic studies
carotid artery stenosis, 149
relation between cardiac function and cerebral blood flow
effect of CO_2 inhalation, 330
Hemorrhage
cerebral
cerebrovascular disease in Indiana community, 261
cerebrovascular disease in midwestern community, 454
death statistics, 184
localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
transient cerebral ischemic attacks, 178
experimental subarachnoid
study for spasm with the production of aneurysms, 248
herniation and stem
massive cerebral infarction with severe brain swelling, 158
hypertensive intracerebral
intracerebral hematomas treated without surgery, 286
intracerebral
cerebrovascular disease in young adults, 466
intracranial
hypoxyrrhachia associated with, 432
subarachnoid
coagulation abnormalities, 139
experimental cerebrovascular spasm, 248, 356
hypoxyrrhachia and intracranial hemorrhage, 432
pathogenesis of cerebral infarction, 52
Hospitals
medical care programs
cerebrovascular disease, 385
stroke team concept, 19
Hydrogen bolus
method for measuring cerebral hemispheric blood flow and metabolism, 419
Hyperbaric oxygenation
effects of acetazolamide and, on syncope, 69
Hypercapnia
PO_2 in cerebral cortex, 194
Hypercholesterolemia
age and nonembolic cerebral infarction, 449
occlusion of middle cerebral and carotid arteries, 363
Hyperoxia
effects of oxygen inhalation, 314
Hypertension
age and nonembolic cerebral infarction, 449
cerebrovascular disease in Indiana community, 261
cerebrovascular disease in young adults, 466
cerebrovascular disease morbidity study, 86
complicating carotid endarterectomy, 307
death statistics for cerebrovascular disease, 184
effect of CO_2 inhalation, 330
experimental subarachnoid hemorrhage, 248
intracerebral hematomas treated without surgery, 286
occlusion of middle cerebral and carotid arteries, 363
relation between cardiac function and cerebral blood flow, 330
Hyperventilation
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
Hypocapnia
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
PO_2 in cerebral cortex, 194
Hypotension
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
Hypoxyrrhachia
associated with intracranial hemorrhage, 432

I

Incidence
age and nonembolic cerebral infarction, 449
cerebrovascular disease, 385
cerebrovascular disease in midwestern community, 454
India
epidemiological study of hemiplegia due to stroke, 477
Indicator dilution techniques
bilateral jugular venous blood flow by thermal dilution, 348

Infarction
cerebral. *See* Cerebral infarction
Infrared microscope
for assessment of cerebral circulation, 100
Inter-Society Commission for Heart Disease Resources, 3
Intracerebral arteries
smaller intracerebral vessels, 128
Intracranial disease
abnormal hemispheric blood flow and metabolism despite normal angiograms in stroke, 219
Intracranial pressure
massive cerebral infarction with severe brain swelling, 158
cerebrovascular disease in midwestern community, 454
focal cerebral
experimental cerebral infarction, 107
temporary occlusion of middle cerebral artery, 439
transient ischemic attacks
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
Ischemic cerebral cortex
effect of $Pa_{(CO_2)}$ on blood flow, 27
Ischemic heart disease
cardiac disorders predisposing to stroke, 164
occlusion of middle cerebral and carotid arteries, 363
Isordil
effect of cyclospasmol and, on vascular spasm induced in basilar artery of cats, 325
Isotopes. *See* Radioisotopes

J

Japan
death statistics for cerebrovascular disease, 184
Jugular veins
bilateral jugular venous blood flow by thermal dilution, 348

K

Krypton
effects of oxygen inhalation, 314

L

LaPlace's law
pathogenesis of cerebral atherosclerosis, 77
Lesions
localization
thermometry, ophthalmodynamometry, auscultation and palpation, 205
Lipids
acute cerebral ischemia, 112
Liver
metabolic changes and cerebral ischemia, 38

M

Manpower problems
cerebrovascular disease, 385
Measurements
cerebral hemispheric blood flow and metabolism, 419
Medical care programs
cerebrovascular disease, 385
Metabolic studies
abnormal hemispheric blood flow and, 219
cerebral ischemia and, 38, 112
method for measuring cerebral hemispheric blood flow and metabolism, 419
Microcirculation of brain
effects of oxygen inhalation, 314
Microscopy
infrared
for assessment of cerebral circulation, 100
Microspheres
particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370
Microvasculature
effect of $Pa_{(CO_2)}$ on blood flow and, of ischemic and nonischemic cerebral cortex, 27
Middle cerebral arteries
nonembolic occlusion, 363
temporary occlusion in monkeys, 439
transorbital approach to, technique for experimental cerebral infarction, 107
Monro-Kellie hypothesis
opacity pulse propagation in animals, 401
Mortality statistics
cerebrovascular disease, 184
nationwide study, 86
Myocardial infarction
cardiac disorders predisposing to stroke, 164
metabolic changes and cerebral ischemia, 38, 112

N

Natural history
discrepancies in neurological history and examination, 14
Necropsy studies
cardiac disorders and embolic stroke, 164
Necrosis
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38
Nervous system
estimating blood flow in central and peripheral nervous system of dogs using particle distribution method, 370
Neurocirculatory control
experimental cerebrovascular spasm, 356
Neurohumors
effects of breathing oxygen or oxygen plus carbon dioxide and the injection of neurohumors on the PO_2 of cat cerebral cortex, 194
Neurological examinations
discrepancies in natural history and examination, 14
estimating blood flow in central and peripheral nervous system of dogs using particle distribution method, 370
inter-observer variability in, 14
intracerebral hematomas treated without surgery, 286
Neuropathology
localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
Neurosurgery
pathogenesis of cerebral infarction secondary to carotid artery occlusion, 52
Norepinephrine
PO_2 in cerebral cortex, 194

O

Occlusions
carotid arteries
cranial artery circulation and ocular pulsations, 23
diagnosed by Doppler ultrasound, 123
method for measuring cerebral hemispheric blood flow and metabolism, 419
opacity pulse propagation measurements, 411
pathogenesis of cerebral infarction, 52
middle cerebral artery
nonembolic occlusions of carotid arteries and, 363
temporary occlusion in the monkey, 107, 439
transorbital approach to middle cerebral artery of squirrel monkey, 107
Ocular pulse
cranial arterial circulation and, 23
Opacity pulse propagaton
in animals, 401
in internal and external carotid vascular beds, 401
measurements in humans, 411
Ophthalmic artery
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
internal carotid artery occlusion diagnosed by Doppler ultrasound, 122
Ophthalmodynamometry
diagnostic method
extracranial cerebrovascular disease, 205
recurrent atherosclerotic obstruction of internal carotid artery five years after indarterectomy, 173
Oxygen
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
effects of breathing O_2 or $O_2 + CO_2$ and of the injection of neurohumors on PO_2 of cat cerebral cortex, 194
hypoxyrrhachia associated with intracranial hemorrhage, 432
PO_2 in cerebral cortex, 194
Oxygen inhalation
effects on blood flow and microvasculature of ischemic and nonischemic cerebral cortex, 27, 314

P

Palpation
evaluation of direct diagnostic methods in extracranial cerebrovascular disease, 205
Paraparesis
infarction of spincal cord, 397
Paraplegia
infarction of spinal cord, 397
Particle distribution method
for estimating blood flow in central and peripheral nervous system of dogs, 370
Pathogenesis
cerebral atherosclerosis, 77
cerebral infarction secondary to carotid artery occlusion, 52
Pathological studies
acute cerebral ischemia, 112
experimental cerebral infarction, 232
permeability of blood-brain-barrier, 375
smaller intracerebral vessels, 128
temporary occlusion of middle cerebral artery, 439
Peripheral nerves
particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370
Peripheral vascular disease
occlusion of middle cerebral and carotid arteries, 363
Physical medicine
stroke team concept, 19
Plaques
atherosclerotic
anatomic and hemodynamic correlations in carotid artery stenosis, 149
recurrent obstruction of internal carotid artery five years after endarterectomy, 173
Pressure changes
anatomic and hemodynamic correlations in carotid artery stenosis, 149
blood volume, hematocrit and pressure relationships in isolated perfused dog brain, 270
massive cerebral infarction with severe brain swelling, 158
opacity pulse propagation in animals, 401
Prevalence
age and nonembolic cerebral infarction, 449
cardiac disorders predisposing to stroke, 164
cerebrovascular disease, 385
in midwestern community, 454
hemiplegia due to stroke: epidemiological study in India, 477
Prognosis
age and nonembolic cerebral infarction, 449
cerebrovascular disease in young adults, 466
Puerperal phlebothrombosis
hemiplegia due to stroke, 477
Pulsations
cranial arterial circulation and ocular pulsations, 23
Pulse assessment
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
Pulse propagation
opacity pulse propagation in internal and external carotid vascular beds in animals, 401

R

Racial differences
cerebrovascular disease in midwestern community, 454
cerebrovascular disease in young adults, 466
nonembolic occlusion of middle cerebral and carotid arteries, 363
Radioautography
localization of radioisotope (Chlormerodrin Hg-203) in experimental cerebral infarction, 143
Radioisotopes
Chlormerodrin Hg-203
localization in experimental cerebral infarction, 143
effects of $Pa_{(CO_2)}$ on blood flow, 27
methods for measuring cerebral hemispheric blood flow and metabolism, 419
particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370
Xenon inhalation method for assessment of cerebral circulation, 7
Regional Medical Programs, 3
stroke team concept, 19
Rehabilitation
cerebrovascular disease, 385
in young adults, 466
stroke team concept, 19

Research programs
Inter-Society Commission for Heart Disease Resources, 3
Rheumatic valvular disease
cardiac disorders predisposing to stroke, 164
Risk factors
cerebrovascular disease, 385
cerebrovascular disease morbidity study, 86
Roentgenographical studies
intracerebral hematomas treated without surgery, 286

S

Scintiphotos
133-Xenon inhalation method for assessment of cerebral circulation, 7
Screening techniques
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
opacity pulse propagation, 401, 411
Seasonal distribution of stroke
cerebrovascular disease in midwestern community, 454
Sedimentation rate
transient cerebral ischemic attacks, 178
Senescence
age and nonembolic cerebral infarction, 449
Serum
pathophysiological changes
acute cerebral ischemia, 112
Sex
age and nonembolic cerebral infarction, 449
cerebrovascular disease in young adults, 466
SGOT (serum glutamic oxalacetic transaminase)
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38
Shunts
blood volume, hematocrit and pressure relationships in isolated perfused dog brain, 270
hypertension complicating carotid endarterectomy, 307
Silicone rubber emboli
experimental cerebral infarction
clinicopathological model of deep cerebral infarction, 232
selective segmental occlusion of intracranial arteries in dogs, 224
Sinus
cerebral transverse
method for measuring cerebral hemispheric blood flow and metabolism, 419
Skull fractures
post-traumatic hemiplegia, 278
Smoking habits
cerebrovascular disease in Indiana community, 261
Sodium
hypertension complicating carotid endarterectomy, 307
Spasms
delayed arterial spasm and thrombosis as cause of post-traumatic hemiplegia (spate thrombosis), 278
effect of Isordil and Cyclospasmol on vascular spasm induced in basilar artery, 325
experimental subarachnoid hemorrhage, 248
noradrenergic medication of experimental cerebrovascular spasm, 356
Spate thrombosis
post-traumatic hemiplegia, 278
Spinal cord
particle distribution method to measure blood flow in central and peripheral nervous system of dogs, 370
spontaenous ischemic infarction of, with traumatic sequela, 397
Standard protocol
discrepancies in neurological history and examination, 14
Statistical analysis
discrepancies in neurological history and examination, 14
Stenosis
arterial
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
carotid artery
anatomic and hemodynamic correlations, 149
blood flow during carotid surgery, 253
Stress
acute cerebral ischemia, 112
pathogenesis of cerebral atherosclerosis, 77
Stroke
hemiplegia due to: epidemiological study in India, 477
mortality rates, 96, 184
opacity pulse propagation measurements, 411
Stroke team concept, 19
Subarachnoid blood
intracerebral hematomas treated without surgery, 286
Subarachnoid hemorrhage
cerebrovascular disease in Indiana community, 261
cerebrovascular disease in midwestern community, 454
coagulation abnormalities, 139
experimental
noradrenergic mediation of cerebrovascular spasm, 356
study for spasm with production of aneurysms, 248
hypoxyrrhachia and intracranial hemorrhage, 432
pathogenesis of cerebral infarction, 52
Subclavian steal syndrome
early reports of, 320
Supraorbital artery
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
Surgery
effect of electrocautery, atmospheric exposure, and surgical retraction on permeability of blood-brain-barrier, 375
endarterectomy
cerebral blood flow and internal carotid artery flow during, 253
hypertension complicating carotid endarterectomy, 307
recurrent atherosclerotic obstruction of internal carotid artery five years after, 173
hematoma
post-traumatic hemiplegia, 278
temporary occlusion of middle cerebral artery in monkeys, 439
Syncope
effects of acetazolamide and hyperbaric oxygenation on, 69

T

Temperature
assessment of cerebral circulation with infrared microscope, 100
Thermal dilution
bilateral jugular venous blood flow measurement by, 348
Thermometry techniques
evaluation of rapid diagnostic methods in extracranial cerebrovascular disease, 205
Thrombosis
anatomic and hemodynamic correlations in carotid artery stenosis, 149
cerebral
cerebrovascular disease in midwestern community, 454
cerebrovascular disease in young adults, 466
delayed arterial spasm and, as cause of posttraumatic hemiplegia, 278
pathogenesis of cerebral infarction secondary to mechanical carotid artery occlusion, 52
retrieval of thrombus attached to Cournand needle, 104
stroke team concept, 19
Tissues
PO_2 in cerebral cortex, 194
Training programs
stroke team concept, 19
Transient cerebral ischemia
attacks associated with subacute bacterial endocarditis, 178
cerebral blood flow and internal carotid artery flow during carotid surgery, 253
cerebrovascular disease in Indiana community, 261
cerebrovascular disease in young adults, 466
discrepancies in neurological history and examination, 14
recurrent atherosclerotic obstruction of internal carotid artery five years after endarterectomy, 173
Triglycerides
acute cerebral ischemia, 112
metabolic changes and cerebral ischemia, 38

U

Ultrasound
internal carotid artery occlusion diagnosed by Doppler ultrasound, 122
Ultrastructural studies
cerebral infarction, transorbital approach to middle cerebral artery of squirrel monkeys, 107

V

Valsalva maneuver
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
Valvular disease
cardiac disorders predisposing to stroke, 164
Vascular accidents
infarction of spinal cord, 397
Vasoconstriction
hypoxyrrhachia and intracranial hemorrhage, 432
Vasodilation
effects of acetazolamide and hyperbaric oxygenation on syncope, 69
Vasospasm
effect of Isordil and Cyclopasmol on vascular spasm induced in basilar artery of cats, 325
intracranial
experimental subarachnoid hemorrhage, 248
Veins
smaller intracerebral vessels, 128
Vertebral artery
subclavian steal syndrome, 320

X

Xenon injection technique
blood flow during carotid surgery, 253
inhalation method of assessment of cerebral circulation, 7

Y

Young adults
cerebrovascular disease, 466
